## EDUCATION HISTORY

2016 – 2020      **BS Computer Science (Hons) 2.84 GPA**  
Lahore Garrison University

### FINAL YEAR PROJECT

I developed the "Online IT Solution and Troubleshooting System (OITS)" using ASP.NET Core for my Final Year Project. OITS provides an efficient platform to address user-reported IT issues, enhancing operational efficiency and reducing downtime. It streamlines issue reporting, analysis, and resolution, fostering collaboration between users and technical teams. OITS ensures prompt and systematic troubleshooting, transforming the way IT challenges are managed while gathering valuable user feedback.

**Tools:** Visual Studio, SQL Server (2019), Photoshop CS6

**Role:** Developer & Designer

**Duration:** 6 Months approximately

### Description of Final Project:

In this project, there are different modules like Administration, Engineer, and Users which are linked together and according to that Users Can generate the Complaint and check the status of the complaint, Administration assigns the complaint to the engineer and the Engineer solve the complaint and update the status.
